

NEMO SUBMERSIBLE CORDLESS ANGLE GRINDER

-Coming March 2016

The **Nemo ANGLE GRINDER** (AG24-6Li-50) was developed due to customer demand for a light-weight, submersible, cordless angle grinder. The Nemo ANGLE GRINDER has a maximum operating depth of 50m (164ft) and its 1000-watt brushless technology ensures maximum efficiency and durability. It is equipped with a dead man's switch that automatically turns off the tool if it is dropped.

This tool has a salt-water resistant black and red paint job and comes with a carrying case, battery charger, pressure valve and pump to pressurize the tool, and two 22V Li-Polymer 5Ah batteries. Spare batteries are available for purchase.
